TECHNICAL SKILLS

Cloud Platforms

- AWS (Advanced)
- Azure (Intermediate)

Security Services

- AWS WAF, GuardDuty
- Security Hub, Shield Adv.
- Inspector, Amazon Macie
- IAM, KMS, AWS Config
- CloudTrail, Barracuda WAF

Threat Detection & SIEM

- Wazuh, IBM QRadar
- Seceon, Amazon Detective
- CloudWatch

DevSecOps & IaC

- Checkov, Trivy, SonarQube
- Terraform, CloudFormation
- Jenkins

Networking & Firewall

- AWS Network Firewall
- TLS Inspection, ACM CA
- NACLs, Security Groups
- VPC, VNet

Incident Response

- Lambda, EventBridge, SNS
- Systems Manager
- OpenSearch

Compliance

- PCI DSS
- CIS Benchmarks
- NIST

Scripting & OS

- Python (Boto3)
- Ubuntu, Windows Server

EDUCATION

B.Tech — Computer Science & Engineering

College of Engineering & Management, Kolaghat
2017 – 2021 | CGPA: 8.50

LANGUAGES

- Bengali (Native)
- English (Professional)
- Hindi
- Odia

DIPNARAYAN NANDI

Cloud Security Engineer

PROFESSIONAL SUMMARY

Cloud Security Engineer with 4+ years of hands-on experience hardening AWS environments through threat detection, automated incident response, and compliance-driven security architecture. Expert in GuardDuty, Amazon Detective, SIEM integration (Wazuh, Seceon, IBM QRadar), WAF (AWS, Barracuda), IaC security (Terraform, CloudFormation), and CSPM-based risk mitigation aligned to PCI DSS, CIS, and NIST. Proven track record of embedding DevSecOps into CI/CD pipelines, deploying Network Firewall with TLS inspection, and building automated security pipelines that eliminate human bottlenecks.

PROFESSIONAL EXPERIENCE

Cloud Security Engineer

Workmates Core2Cloud Solution Ltd | Bhubaneswar, India Jun 2025 – Present

- ▶ Deployed custom AWS WAF rule sets across 3 production apps — rate limiting, regex filtering, geo-restrictions, XSS detection — reducing injection attempts measurably within 30 days.
- ▶ Embedded Checkov static analysis into CI/CD pipeline, catching misconfigured IAM policies, open S3 buckets, and insecure SGs before reaching AWS environments.
- ▶ Architected AWS Network Firewall with TLS inspection via ACM Private CA, enabling deep packet inspection on encrypted traffic across production VPCs.
- ▶ Contributed to MSSP Level 1 Competency attainment via documentation, evidence collection, and process standardisation.
- ▶ Built DevSecOps pipeline with Trivy & SonarQube — scanning container images and IaC templates, blocking high-severity CVEs at commit stage.
- ▶ Eliminated \$116/month (97% reduction) in AWS Config overspend by scoping recording to required resource types with zero compliance coverage loss.
- ▶ Integrated Wazuh SIEM with CloudTrail and VPC Flow Logs for real-time correlation across API and network-level events.

Junior Cloud Engineer

Workmates Core2Cloud Solution Ltd | Kolkata, India Aug 2023 – May 2025

- ▶ Improved a customer's AWS Security Hub score from 56% to 83% (+27 points) through systematic triage and remediation of failed findings.
- ▶ Configured end-to-end Security Hub → EventBridge → SIEM integration pipeline, eliminating manual log forwarding and reducing detection lag.
- ▶ Built automated resource change alerting using AWS Config + EventBridge + SNS for proactive governance without manual overhead.
- ▶ Automated OS patch management for hybrid Ubuntu/Windows fleets using AWS Systems Manager Patch Manager.

Trainee Cloud Engineer

Workmates Core2Cloud Solution Ltd | Kolkata, India Dec 2022 – Jul 2023

- ▶ Deployed 3-tier AWS architectures, LAMP stacks, and Amazon WorkSpaces for Windows clients across Linux and Windows environments.
- ▶ Configured SSL certificates for Apache and IIS-hosted websites, eliminating certificate-related downtime.

Cloud Engineer

DevOps Monk | Remote Sep 2021 – Dec 2022

- ▶ Delivered AWS infrastructure solutions using IAM, EC2, S3, CloudTrail, CloudFormation, Lambda, AWS Organizations, and CloudWatch for multiple clients.
- ▶ Built CI/CD pipelines using Jenkins and automated infrastructure provisioning with Terraform; visualised health via Grafana dashboards.

KEY PROJECTS

AWS WAF Custom Rule Implementation & Threat Detection

Designed and deployed custom AWS WAF rule sets across 3 production applications including rate limiting, regex-based payload filtering, geo-restrictions, HTTP method controls, and XSS detection. Integrated WAF logs with Wazuh and IBM QRadar for real-time threat correlation. Automated alerting via Lambda and SNS — achieved measurable reduction in injection attempts within 30 days.

DevSecOps Pipeline: IaC Security Scanning with Checkov

Embedded Checkov static analysis into CI/CD pipelines for pre-deployment scanning on Terraform and CloudFormation templates. Configured policy-as-code rules to catch misconfigured IAM, open S3, and over-permissive security groups. Complemented with Trivy for container CVE scanning and SonarQube for SAST.

AWS Network Firewall with TLS Inspection via ACM Private CA

Architected AWS Network Firewall with TLS inspection across production VPCs. Configured stateful/stateless rule groups for deep packet inspection of encrypted east-west and north-south traffic. Implemented centralized inspection VPC with Traffic routing via Transit Gateway for multi-account encrypted visibility.

Automated Cloud Security Incident Response (IR) Pipeline

Built end-to-end AWS IR automation: GuardDuty → Amazon Detective → SNS/Lambda with automated Slack/email alerts and remediation (EC2 isolation, IAM credential revocation, SG updates). Full audit trail via CloudTrail with centralized storage in S3 and OpenSearch for forensics.

CSPM & Security Hub Remediation — Posture Uplift (56% → 83%)

Led CSPM-driven remediation campaign improving AWS Security Hub score by +27 points. Triaged findings across CIS, PCI DSS, and NIST. Implemented Security Hub → EventBridge → SIEM pipeline and AWS Config + SNS alerting for real-time resource change governance.

CERTIFICATIONS

-
- ◆ **AWS Certified Security – Specialty (SCS-C02)** | Amazon Web Services • April 2025
 - ◆ **AWS Certified Solutions Architect – Associate** | Amazon Web Services • December 2023
 - ◆ **WAF-as-a-Service Certified Product Specialist** | Barracuda Networks • June 2025
